EDUCATION

University of Southern California, Marshall School of Business and Viterbi School of Engineering **Los Angeles, CA**

MS in Applied Data Science *Dec 2028*

BS in Artificial Intelligence for Business (GPA: 3.67, Major: 3.94) *May 2028*

- Awards: National Merit Scholar (top 1% nationally), USC Presidential Scholar (top 2% merit scholarship), Cornell Tech Break Through Tech AI/ML Fellow, Dean's List, President's Volunteer Service Award (Gold)

EXPERIENCE

Advantest – Global Semiconductor Test System Provider **San Jose, CA**

AI & Product Management Intern *May 2026–Aug 2026*

- Narrowed 20 AI vendors to 2 signed pilot contracts for Advantest's RAG knowledge system by conducting competitive analysis and building a scoring framework weighing cost, technical maturity, and integration lift, informed by running cross-functional stakeholder interviews across 4 teams
- Cut 110+ hours of weekly manual coordination for a 60-person team by shipping cloud-hosted AI agents for Jira triage and ticket routing

Business Analyst & Data Systems Intern *May 2025–Aug 2025*

- Built a RAG-powered knowledge system from 12,000+ HTML documentation files for Advantest's flagship 93K product line (serving NVIDIA/Qualcomm), that reduced document processing time by 54%
- Modeled enterprise LLM deployment costs across 15+ vendor configurations, delivering the cost comparison senior leadership used to guide $2M+ in AI infrastructure investments

TrojanReg – USC Degree Planning Platform **Los Angeles, CA**

Technical Product Lead *May 2026–Present*

- Led 5-person engineering team building a degree planning tool for USC's 20,000+ undergraduates, owning the product vision, project plan, and milestones, with requirements prioritized from student and faculty input
- Built the LLM extraction pipeline converting requirement prose into machine-checkable constraints for all USC degrees
- Architected zero-trust privacy requirements to satisfy FERPA compliance without university data agreements, defining client-side transcript parsing to ensure 100% data privacy
- Designed and implemented 4-year scheduling engine and optimization solver, validated against 50+ student transcripts

Canva **Los Angeles, CA**

Undergraduate Communications Consultant *Aug 2025–Dec 2025*

- Conducted 25+ user interviews targeting higher-ed onboarding barriers, discovering critical UX friction points that blocked 93% of prospective student users and presented findings to Canva senior stakeholders
- Translated qualitative research insights into actionable user stories and GTM recommendations, directly influencing priority trade-offs on Canva's higher-ed product roadmap

LEADERSHIP

DataSC – USC Data Science Organization **Los Angeles, CA**

President *Apr 2026–Present*

- Spearhead 200+ member data science organization, managing a 25-person board across 10 member-led research project teams and driving a 340% increase in active membership
- Recruited KIPP SoCal as DataSC's external research partner and led the 7-person team delivering enrollment yield recommendations to the network's COO
- Standardized an operational handoff framework enabling board transition while delivering 17 workshops per semester

USC Vietnamese Student Association **Los Angeles, CA**

Director of Finance *Aug 2024–Apr 2026*

- Managed $9,000 budget and 17-person team; raised $3,500 for flagship event drawing 500+ attendees across 15 colleges

SKILLS

Product: Requirements Scoping (PRDs), User Research, Roadmapping, Agile/Jira, A/B Testing, Project Planning
AI/ML: RAG Systems, LLM APIs, Agentic Workflows, Prompt Design, Model Evaluation
Technical: Python, C++, SQL, R, Claude Code, Optimization (BIP), Excel
